

TeamingPro Pipeline Management

Manage your bids and track your success with an organized pipeline

Unlimited Pipelines

- Pipeline is organized into 6 buckets following the Shipley Model
- Add opportunities or contracts with a single click and track with automated updates
- Add teammates to easily organize, track, and communicate utilizing real-time alerts, document uploads, record-level notes, and more

Strategic Alerts To Stay In The Know

- Health Check keeps you in the know about your team's certifications, qualifications, and more
- Never miss an update with automated notifications for opportunities, contracts, and teammate record inputs

Automated Tracking

- Easily track company to user-level pipelines with real-time alerts and built-in collaboration

Streamline your pipeline management and track opportunities, conversations, and proposal deliverables in one place.
