## What **data sources** do we use to gather federal contracting company data?

- We utilize multiple government and non-government data sources to make every company in the federal market robustly searchable.
- Our government sources include: SAM.GOV, FPDS, USASpending.gov, SBA, FAPIIS and others.
- We expand each company profile with supplemental data from company LinkedIn pages and websites, using an automated crawl to gather content-rich data.
- *Identifying robust data sources is a priority. We continuously update and add to our list of viable data resources to improve results.*

### Automate Teaming

Improve tracking and reporting of prime and sub teaming partners with automation. Use AutoConnect to reach more companies, faster and strengthen your teaming network.

### Company Vetting

Vet partners by their company profile, including size categories, capabilities, past performance and more in a single, user-friendly interface.

### CRM Tracking

Easily track every connection turned relationship and add in your current connections for automated tracking and built-in data updates.

### Competitive Advantage

Companies and federal agencies utilizing TeamingPro's AutoConnect are sourcing the entire federal market in real-time, every time. Strengthen your pipeline and improve your teaming network with automation, **connecting with qualified companies faster than your competition** and providing your firm or agency with a competitive advantage.
